The Zeitgeist Seer Program

Zeitgeist 先知计划

Welcome

欢迎您

Welcome to the Zeitgeist Seer Program! Zeitgeist is a blockchain that is powered by prediction markets, and prediction markets are powered by the community that participates in them. Emphasizing this philosophy of a community-powered blockchain, Zeitgeist will be governed via "Futarchy", a governance model introduced by world renowned economist Robin Hanson. With this kind of true community-driven governance, Zeitgeist is pushing the boundaries of what we've seen in the blockchain industry to date.

> 欢迎加入 Zeitgeist 先知计划！Zeitgeist 是一个由预测市场驱动的区块链，而预测市场则由参与其中的社区驱动的。为了强调社区驱动的区块链理念，Zeitgeist 将通过" Futarchy "进行治理，这是一种由世界著名经济学家 Robin Hanson 引入的治理模型。通过这种真正的社区驱动治理，Zeitgeist 正在突破我们迄今为止在区块链行业中看到的界限。

We want to continue this emphasis on community, Zeitgeist's Seer program was created as an effort to foster the organic growth of our ecosystem. We want to give our community a chance to build and create within the Zeitgeist ecosystem right from inception, and have a meaningful impact on the evolution of Zeitgeist itself.

> 在这里，我们想要继续强调一下社区，Zeitgeist 的先知计划旨在促进我们生态系统社区的组织化成长。我们希望让我们的社区有机会从一开始就在 Zeitgeist 生态系统中建立和创造，并对 Zeitgeist 本身的演变产生有意义的影响。

Our Vision

我们的愿景

Our vision for the Seer Program is to build a community of like-minded individuals who are dedicated to creating, and shaping the future of the Zeitgeist ecosystem. Our program focuses on fostering an atmosphere where participants are incentivized to network and collaborate together with the common goal of advancing the ecosystem.

> 我们对先知计划的愿景是建立一个由一群志同道合的人组成的社区，他们致力于创造和建设 Zeitgeist 生态系统的未来。 我们的计划侧重于营造一种氛围，鼓励参与者建设网络，并与推进生态系统的共同目标而合作。

How It Works

运作原理

The Seer program is designed with two major avenues of progression: Titles and Eras. Built for adaptability and encouraging collaboration towards common goals, Titles and Eras are tangible sources of progression for Seers and the program itself. The evolution of the program will eventually be guided by the principles of Futarchy as Zeitgeist matures.

> 先知计划的发展途径有两个概念："名称（Titles）"和"时代（Eras）"。 名称和时代的设计用于适应 Zeitgeist 的不断发展和激励社区成员的共同协作，是先知计划本身发展的可见资源。随着 Zeitgeist 的成熟，该计划的发展最终将遵循 Futarchy 的原则。

Eras

时代

Eras are the vehicle of progression for the Seer Program as a whole. Each Era lasts a limited time and has its own area of focus, or "zeitgeist", that drives the activity and growth of the ecosystem in a targeted and progressive manner.

> 时代是整个先知计划发展的载体。每个时代都会持续有限的时间，并旨在专注于 Zeitgeist 生态系统发展的某些领域，以有针对性和循序渐进的方式推动生态系统的活动和发展。

Titles

头衔

Titles are designed to distinguish members of the program who have made active contributions to the Zeitgeist ecosystem and act as a source of prestige for those members. Titles also unlock various perks throughout the duration of the program including exclusive NFT rewards.

> 头衔旨在区分为 Zeitgeist 生态系统做出积极贡献的项目成员，并作为这些成员的声望来源。 在整个计划期间，头衔还可以解锁各种特权，包括独家 NFT 奖励。

Get Involved

加入我们

Does the idea of building the future of blockchain appeal to you? If you are interested in creating prediction markets, building prediction market based apps, blockchain development, community co-ordination, or anything else that you think would contribute to the growth of the Zeitgeist ecosystem, then the Seer Program is the best place to get started.

> 构建区块链未来的想法对您有吸引力吗？ 如果您对创建预测市场、构建基于预测市场的应用程序、区块链开发、社区协调或任何其他您认为有助于 Zeitgeist 生态系统发展的事物感兴趣，那么"先知计划（Seer Program）"将是最佳的起点。
