Prediction Market Community Education

有关预测市场的社区教学

This event is geared towards the content creators of the Zeitgeist Seer Program. There is a lot of confusion around the subject of Prediction Markets and how they differ from traditional markets. Many people see prediction markets as another form of gambling, but they are far more complicated than that. There are several nuances involved in the participation of prediction markets that make them not only more exciting and complex than simply placing a bet, but also incentivize participants to make a correct prediction, rather than "taking a bet". A lot of people are at a loss when it comes to understanding how these nuances work, or where they come from; and that is the inspiration for this event.

> 本次活动面向 Zeitgeist 先知计划的内容创作者。也许有人不清楚预测市场和其他传统市场的区别。许多人将预测市场视为另一种赌博形式，但是预测市场远比这复杂得多。在参与预测市场的过程中，有一些区别于赌博的细微差别，这些差别比传统市场简单的下注更令人兴奋和复杂，而不仅仅只是"下注"。很多人在理解这些细微差别的工作原理或它们的来源时感到困惑，这就是这次活动的灵感来源。

If you are new to prediction markets yourself, this will be a great way to learn more and work towards getting ahead of the pack in the Seer Program. If you are experienced in the subject of prediction markets, this is the perfect way to show your talents and help to spread factual information to the program, as well as the greater public.

> 如果您是预测市场的新手，这将是一个了解更多关于预测市场信息的好方法，有助于您在先知计划中遥遥领先。如果你在预测市场方面经验丰富，那么这将是你展示才华的舞台，您将帮助更多的人了解到关于该项目的真实信息。

This Event is not limited to any single form of content, your submission could be video, blog post, slide presentation, or any other method. The only requirement is that you cover the topic of prediction markets with a goal of educating the broader community on the subject.

> 本次活动不限于任何单一形式的内容，您可以通过视频、博客文章、幻灯片演示或者其他任何方式提交。唯一的要求是，您要围绕预测市场为主题，以教学的方式拓展社区。
